

IsoChem[®], the new line of insulation upfit solution by GRUau

GRUau is Europe's leading commercial van upfitter. For the Work Truck Show in Indianapolis, GRUau is showcasing its unique IsoChem[®] insulation solution, which is listed in the New Product Spotlight. The IsoTemp[®] refrigerated solution presented last year, will also be exhibited during this edition. IsoTemp[®] is available for the full range of commercial vans sold on the U.S. market. IsoChem[®] will be available in May for the mainstream commercial vans. Come experience the innovative solutions, lightweight and form-fitting IsoChem[®] & IsoTemp[®] system at GRUau Work Truck Show booth # 721 from March 2-4, 2016.

For more than 125 years, GRUau has developed and manufactured transportation solutions for its clients worldwide. Upfitting 50,000+ vehicles per year for clients across a wide variety of industries, GRUau identified a need for high performance refrigeration and insulation upfit solutions. Using its extensive commercial van experience, the IsoTemp[®] and IsoChem[®] product series were born.

The IsoChem[®] series provides a purpose-built isolation with an option for light insulation (pharma applications) and/or climate control solution. It also features an impervious and easy-to-clean finish that is ideal for transporting hazardous materials. Indeed, this isolated cargo space reduces odors and vapors from entering occupant compartment. It is FMVSS 201U compliant.

IsoTemp[®] is a complete refrigeration upfit solution that includes, low-profile modules designed for efficient climate control while retaining maximum cargo space and preserving the van's exterior.

Standard versions for IsoTemp[®] solutions are available for MERCEDES (Sprinter, Metris), FORD (Transit, Transit Connect), RAM (Promaster, Promaster City), CHEVROLET City Express, NISSAN NV200...

In order to address the specific needs of its clients, from contractors to large corporations, both IsoTemp[®] and IsoChem[®] can be customized for:

- Pest control
- Chemical Transport
- Pharmaceutical Transport

- Food Delivery
- Biomedical Transport
- Catering

About GRUau:

Created in 1889, GRUau, French family-owned company, is the N°1 Light Commercial Vehicle upfitter in Europe converting more than 50,000 vehicles per year for companies around the world. GRUau GROUP is a referenced supplier to 34 international vehicle brands, and it designs, manufactures and commercializes more than 20 product lines.

For over 30 years under the leadership of Patrick Gruau, 5th generation of the family at the head of the company, GRUau GROUP continues to grow. Its 17 facilities (12 in France, 2 in Poland, 1 in Spain, Algeria and USA) employ a total of 1,110 people and recorded a turnover of \$234 million in 2015.
